

Newsroom

EBP has always had a consistent philosophy to openly share our research findings and analysis methods at professional conferences, and in journals, magazines and news media. Besides posted copies of our articles and reports in our web library, you can read about our recent work through our newsletter, press releases and news media coverage.

Our newsroom has two features:

- **Press releases** about recent events, news media coverage, and announcements of upcoming events,
- Blog and Social media presence including **LinkedIn**.
